

•WORLD WIZARDS' TRACK TEAM

Our track team, open to all, is coached by our Physical Education Specialist. Offering the students a chance to engage in a team sport with a focus on individual achievement, the group participates in Police Athletic League and City of Nashua track competitions.

Members reap many benefits from the club, including healthy competition and sportsmanship skills.

•ICE SKATING

Those aspiring Michelle Kuans or Cam Neeleys may participate in ice skating lessons or "Free Skate" in Roby Park or at The Conway Ice Arena in Nashua. Big Kids' City staff supervises and guides this wonderful opportunity.

•KARATE

On site classes are offered by "Karate for Kids" of Amherst for our school-age students. They are given the opportunity to fine-tune their current skills and acquire new ones in professional-level classes that promote self confidence and positive self-esteem.

•KICKBOXING

This fun exercise allows the children to expend energy, participate in healthy physical activity and acquire skills to promote their own safety.

Our Physical Education Specialist teaches this group activity that encourages individual results.

*Additional programs are added based on student interest.

HERE IS WHAT SOME OF OUR "BIG KIDS" SAY:

Big Kids City
I like BKC because I get one hour and forty-five minutes to do my homework. After that I get to play sports and usually we play really fun games in fall and spring track starts up and we get to run and get exercise after school. These are reasons that I enjoy Big Kid City.

By Jill Keerty

Phillip Holton

These are all the reasons I like BKC. BKC allows me to socialize without getting in trouble. It also lets me finish my homework before I get home. The skaters get to enjoy the latest games in the arena. I also get to play sports. I enjoy to art and crafts. Without BKC life would be very dull.

Janet White

I like Big Kid City because they have a lot of choices. You can have snacks, do homework and play sports, computers, books, go to arts and crafts, sit all up to you and they have outside time and a fruit bar. You can have fruit anytime until 5:00 when they put it away. There is also the library. We're myself and other fifth and sixth graders can go to hang out. That's why I like Big Kid City.
