Personal: Lyndsi has worked in the child care field for four years and in her free time likes to read, watch movies and spend time with her family and friends.

Educational Philosophy: I believe all children, no matter their age, have specific wants and needs that need to be met while learning and growing. Each child should be treated with respect and the way their parents would want them to be treated. As an educator, it is my desire to provide meaningful learning experiences that peak curiosity and promote learning for children of all ages so they can reach their full potential as a learner.

It is important as an educator to be a positive role model for the children. Children need positive role models in their lives and I hope that I can be that for them.

It is my job to make sure as the children move onto the next room they have the skills to become independent as they grow older and have an interest in hands-on learning on their own. Teaching provides opportunities for continual growth. It is my hope to help each child love learning and show them that learning is fun.
