The 17th Annual Exemplary Workers Breakfast, presented by Nashua Rotary West, took place at the Crowne Plaza on Tuesday, March 10, 2009. The event is held annually for companies to publicly recognize employees that have demonstrated the following criteria:

- Outstanding commitment to their jobs
- Suitability as role models for other workers/peers
- Longevity in the day to day operations of your business

Workers are nominated by their employer to receive this prestigious award that was handed out on Tuesday. In addition to attending the breakfast and being publicly recognized, each nominee receives an award certificate and a rose. Workers were also treated to a visit by Governor John Lynch, the keynote speaker, who addressed the state of the economy in his speech, but reminded the audience that New Hampshire is faring better than much of the United States.

In addition to The World Schools recognizing their exemplary staff, dozens of other area companies and organizations were represented at the event that totaled more than 300 attendees! Congratulations to all for this highly coveted award!
